Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance: After receiving the amendment in response to the final rejection, the claims have been found to be allowable since no prior art could be found teaching or suggesting a probe to detect the mechanical resistance of the tissue to piercing, comprising a compressible pointed piercing tip having a base mounted at a distal end of the cylindrical probe body through a coiled wire sliding over the surface of an inbuilt changeable electrical resistance and over a metal blade, as claimed in Claim 1; a probe to detect the electrical resistance, comprising a pointed piercing tip including two electrically isolated electrodes connected to an electrical circuit to detect the electrical resistance of the tissue to passage of an electrical current, as claimed in Claim 2; and a probe to detect the electrical activity of the target tissue, comprising a pointed piercing tip electrically isolated from the probe by a transverse insulator to detect the electrical activity of the target tissue, as claimed in Claim 3.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Brian Szmal whose telephone number is (703) 308-3737. The examiner can normally be reached on Monday-Friday, with second Fridays off.
